

Logo Design:

Your design must fit into the box below, do not extend out of the box. Keep it Black and **White** only do not surround an area of white with black. See the examples to the left. Keep in mind that **BOLD** marks work better, so keep all lines **thick**.

Remember, you **must** use an image as well as text or alter the text substantially to be approved.

No sketchy designs, just solid areas Black or **White!**
